After an 8 year career within Hospitality sales, I have decided to embark on a career change into the Tech industry. As a recent software engineering graduate with hands-on experience in React Native and Firebase, I'm eager to apply my skills in app development and problem-solving to contribute to innovative tech projects.

Skills

- **Programming Languages**: Python, C#, C++, HTML5, CSS, Javascript.
- **Frameworks**: React Native, Firebase, Node.js.
- **Tools**: Git, Docker, Postman.
- **Database Systems**: Firebase, SQL, MongoDB.
- **Other**: APIs, RESTful services, Agile.

Job Simulation / Virtual Work Experience - via Forage

Technology Software Developing   **February 2025**
Citi | Virtual Work Experience
